COP3530 Song Sorters - Group Peer Evaluation

Our group has three members, so the total number of points is 30. The scores below reflect each member's work and role in the project.

Group member	Strengths	Weaknesses / areas to improve	Points
Rafael Hitoshi Teixeira Oura GitHub: @Rafatoshi	Was the group leader and helped guide the project. Also worked on Merge Sort and its tests.	Could have shared updates and checked in with everyone more often.	**12**
Alwin Paul GitHub: alwinp2006-stack	Worked on the benchmark, main.cpp, and the report. Helped put the project together.	Could have planned the work and checked in with the group earlier.	**10**
Ricardo Chiacchio Ribeiro	Did his fair share of the work by making Quick Sort and its tests and helping with the project.	Could have shared progress and worked with the group earlier when putting the code together.	**8**

Total points: 30 / 30

Group agreement: Rafael received 12 points for leading and guiding the project. Alwin received 10 points for working on the benchmark, main.cpp, and the report. Ricardo received 8 points for completing his Quick Sort work and tests.
